

Introduction Philip Eade

Thank you for the opportunity to be a silver sponsor of this event.

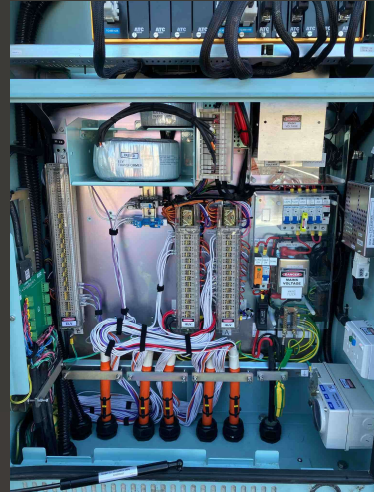

Everybody knows FH for infrastructure construction and civil works. But we also do other works.

Distribution, Industrial, TS/ITS

We have Electrical business's in all of the major regions across New Zealand
 ITS & Traffic Signals Maintenance and Infrastructure Upgrades
 (CCTV, Webcams, VMS Signs, AWS, PLC Device Controllers, Traffic Counters, Road Side Cabinets, Private Utilities Network Maintenance)
 Street Light Maintenance Contracts & Renewal Projects
 Industrial Maintenance Asphalt Plant, Bitumen Plants, Quarry Sites and Portables
 Crushing Sites
 3 Waters (Pumping Station Maintenance)
 Airfield Lighting

Traffic Signal Projects

 **Fulton Hogan**

In 1.5 years or so. We've installed 11 new sets of traffic lights in Chch & 1 Ashburton and done multiple upgrades.

Traffic Signal Projects

 **Fulton Hogan**

In 1.5 years or so. We've installed 11 new sets of traffic lights in Chch & 1 Ashburton and done multiple upgrades.

We installed a set of traffic lights in Tinwald, Ashburton as part of the NZUP programme, along with Kiwirail installing a new rail level crossing to improve cars, pedestrian and cycling facilities.

ASM

 Fulton Hogan

On the ASM

FH look after:

- 140 Traffic signal controller ramp metering
- 160 Vehicle detection classification counters
- 456 CCTV's
- 3400 loops
- 40 Motorway VMS signs

ASM

 **Fulton Hogan**

On the ASM alone.

FH look after:

- 140 Traffic signal controller ramp metering
- 160 Vehicle detection classification counters
- 456 CCTV's
- 3400 loops
- 40 Motorway VMS signs

Maintenance Call Outs

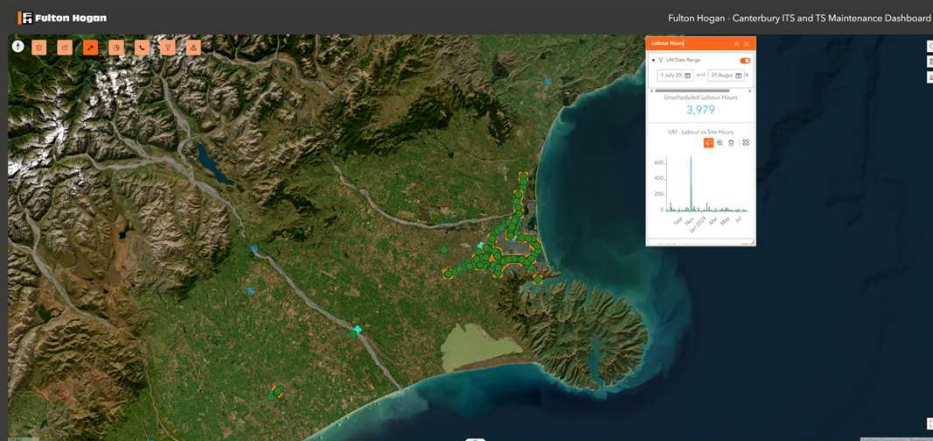

On the maintenance contract in the last 14 months, we've attended 151 call outs in Chch, 6 in Ashburton
Out of the 151 call-outs 45 were related to poles being damaged.

Done 3979 hours of unscheduled hours.

To give you some context that's 67 combined TS & ITS sites
66 ITS sites only

Maintenance Unscheduled Hours

Fulton Hogan Traffic Signals

 Fulton Hogan

In this video provided by Kiwirail it's a time lapse video which shows the build for **Walnut Avenue intersection improvements** in Ashburton which consisted of two sets of traffic lights in which they replaced the roundabouts. This is a NZTA project.

Key features of the project are:

- New signals at the SH1 and Walnut Avenue intersection
- New signals at the East Street and Walnut Avenue intersection
- New rail level crossing
- Improved pedestrian and cycling facilities.

Construction began in August 2021 and was completed in November 2022.

Thank You
