

# Discussion Points

1. The impact of scooters in a CBD environment
2. Design Guidance – How much is appropriate?
3. Ped / cycle Combined Buttons?
4. Green Tactiles – where & when?
5. Software Capability
6. Designers vs Installers, how do we explain what we want, what can we design to make the installation cheaper / easier / better?
7. Lantern Alignment Guidelines (and rules of thumb)?
8. Who can enter controller cabinets? Just electricians? Or EST as well? Or others?
